**We are proud to present the
2nd Annual Women in Business Summit.**

The Fresno and Clovis Chambers were founded on the core values of advocating, connecting and educating local business owners. We continue to empower women in the workforce through professional development and community building platforms. This year's Women in Business Summit brings together fellow women business leaders, professional speakers, and the opportunity to showcase your business.

*Created by women for women **because we're in business together.***

For more information on the Summit or to reserve your booth, contact your Chamber:
