

CITY of CLOVIS

INFORMATION ABOUT MEASURE Y

THE CITY OF CLOVIS PUBLIC SAFETY, CITY SERVICES MEASURE

On August 5, 2024, the Clovis City Council unanimously decided to place Measure Y, the City of Clovis Public Safety, City Services Measure on the November 2024 ballot.

Clovis is the safest city in the Valley and a great place to live, work, and raise a family. But our community is facing new and growing challenges from crime and homelessness coming from neighboring communities, increasing potholes on local streets and roads, and increasing costs of providing basic services.

Measure Y is a 1% sales tax measure that, if approved by voters, will provide a local source of funding that the City will be able to use to maintain our Clovis way of life.

COMMONLY ASKED QUESTIONS:

Why have 9-1-1 response times increased?

The City of Clovis has the same number of firefighters and police officers as we had over 15 years ago, while our population has increased nearly 40%. This has increased 9-1-1 response times for police and fire, making us all less safe. If approved, Measure Y will provide additional funding that could be used to help Clovis maintain the City's 9-1-1 response times for medical, police, and fire calls for service.

How have increased response times impacted medical emergencies?

In an emergency, seconds count. Approximately two-thirds of all calls to the Clovis Fire Department are related to medical emergencies. If approved, this measure will provide additional funding that could be used to help improve response times from 11 minutes in some areas of the City, to the standard of 6 and a half minutes in all areas of the City. This measure will ensure our City has the needed firefighters and paramedics, and increase the number of certified EMT firefighters and lifesaving equipment to respond to emergencies, and help save lives.
